<http://www.stylehive.com/stylepro>

- The Stylehive can be used as your personal product portfolio, which you can share with your clients on the web and via email.
- You can bookmark products to share with your clients from any website, and view them all in one place.
- Find great products already in the hive, or add new items that you hand-pick from other shopping sites.
- Create custom shopping lists for each individual client, or make general shopping lists that group products by category, by season, by designer, or by store.
- It's easy to share your hive with clients. You can simply give them a link your hive or email them a wishlist you have created. Your clients can also sign up to automatically receive updates on new products you have bookmarked.
- Use the Stylehive to promote your own personal style and shopping picks. Get noticed and gain visibility. Drive traffic to your own blog.
- Create and maintain personal hives for your clients to showcase their brand, charity and product affiliations.
- Promote your favorite brands, products, and retailers – you'll be driving traffic directly to their sites.

What is the Stylehive?

The Stylehive is the worlds largest social shopping community. By "following" people whose style or taste interests you, you can build a trusted group of people to provide you with a constant stream of shopping recommendations. Invite your friends and family to "follow" you in the hive and they can help you make decisions and let you know what they discover!

So you can start "following" people that interest you, get updates on their new discoveries, and see what style they are rockin' today. You will be able to set up your own profile in the hive and start building your own following. You will be able to "join" retail communities to receive special offers. You will be able to take full advantage of all the powerful tools the Stylehive provides for discovering, saving (hiving), and sharing your own finds. So come join in the fun.
